Correction Sheet

E

This correction sheet updates and improves the manual of

Safety-related Small Control A1 (HM 97.32)

The following sentences are technically **not correct** in the manual of the Safety-related Small Control A1 chapter **6.1** of the English version (page 42).

- The operating system, the application program and the parameter area are stored in non-volatile memory (flash EPROM). The variable area is stored in a RAM with battery support for the RWN area.

The translation is incorrect, the correct sentences are:

- The operating system is stored in a non-volatile memory (flash EPROM). The variable area, the application program and the parameters are stored in a RAM. The RAM is battery buffered.

Note:	The correction sheet is also valid for the English manuals "Safety-related Small Control A1/A1dig" with document numbers **HI 800 011 AEA** and **HI 800 011 AVA**. The documentation **HI 800 011 AVA** is on the ELOP II CD-ROM.
